Claims 1, 4-6 and 7 are pending in this application.

Response to Arguments

Applicant's arguments, see page 3, filed 13 November 2003, with respect to the rejection made under 35 U.S.C. 112 1st paragraph have been fully considered and are persuasive. The rejection of claims 1 and 4-6 has been withdrawn.

Applicant's arguments filed 13 November 2003 have been fully considered but they are not persuasive. The rejection of Buzas et al. in paper no. 20 under 35 U.S.C. § 103(a) is maintained and hereby repeated. Regarding claim 7, the examiner acknowledges that claim 7 was present at the time of the first office action and said claim is hereby included in the above rejection. Since nausea is a disorder associated with the motility of the gastrointestinal system, it would have been obvious to treat nausea since Buzas et al. teach that, *inter alia*, pindolol combined with carbonic anhydrase inhibitors reduces gastric secretions. Thus reducing the acid that would inhibit nausea.

In response to applicant's argument that Buzas et al. is nonanalogous art, it has been held that a prior art reference must either be in the field of applicant's endeavor or, if not, then be reasonably pertinent to the particular problem with which the applicant was concerned, in order to be relied upon as a basis for rejection of the claimed invention. See *In re Oetiker*, 977 F.2d 1443, 24 USPQ2d 1443 (Fed. Cir. 1992). In this case, Buzas et al. teach a composition comprising a carbonic anhydrase inhibitor and a

beta blocker such as pindolol to treat gastritis, gastro-duodenitis and gastro-duodenal ulcers. The claim language *comprising* leaves the claim open for the inclusion of unspecified ingredients, even in major amounts (see MPEP § 2111.03), thus applicant's instant claims do not exclude carbonic anhydrase inhibitors to treat gastrointestinal disease.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
